

The Dental Pros® JumpStart 2015

Learn ■ Grow ■ Prosper

Case Acceptance and Communication in a Changing Dental Landscape with a Focus on Implant Dentistry (2 CE)

- a review of recent changes in the dental landscape
- the patient experience-vs-expectation
- case acceptance and continuity of care of the treatment team
- effective communication that promotes successful clinical and business outcomes
- **BRING THE ENTIRE TEAM FOR THIS SESSION!**

—Presented by *Brooke Albright, BS, MA*

Treating the Terminal Dentate Patient (4 CE)

Streamlining the Planning and Outcome Using Fully and Partially Guided Surgical and Restorative Techniques

As the development of implants continues to be driven by patient's demand for faster, painless, predictable results, it is critical that how you plan and proceed as a clinician is backed by solid evidence. This course will not only teach you the industry leadership recipe in immediate load techniques, but also the emotional equation in patient psychology that drives them toward accepting treatment! Our discussion will include the following topics:

- Advanced surgical & prosthetic implant techniques with compelling research in support
- Guided All-on-4® Techniques
- How to market to the right patients
- Develop a bulletproof system for immediate single tooth and full arch implants
- What could possibly go wrong and how to avoid problems
- Nobel Active vs. NobelSpeedy for the All-on-4® treatment concept

—Presented by *Dr. Joel S. Berger, DDS, MD and Dr. Ian Aires DDS*

About our Presenters

Brooke Albright, BS, MA

Brooke Albright has over 11 years of experience working within healthcare; the last six spent in implant dentistry. Brooke is passionate about helping practices understand the systems, protocols, and communication needed to gain case acceptance and thrive in multifaceted business and clinical environments. Brooke has a BS in Biology with an emphasis in Health Science and is currently completing a PhD in Psychology from Pacifica Graduate Institute. Brooke is a senior advisor for Conscious Healthcare Consulting LLC, a firm dedicated to understanding and serving the complexities of patient care, mindful leadership, and business development. In addition, she has worked with the top two implant companies in the world and currently manages a territory for Nobel Biocare in Southern California.

Dr. Joel S. Berger, D.D.S., M.D. and Dr. Ian Aires, D.D.S

The founders of The PermaDontics Center, Dr. Joel S. Berger, D.D.S., M.D. and Dr. Ian Aires, D.D.S have over 55 years of combined service in their respective fields. Their award-winning, groundbreaking leadership in the fields of Oral Surgery and Prosthodontics have been recognized worldwide. Always committed to excellence, they have worked tirelessly over the last fifteen years to refine and perfect their innovative dental implant procedures. A well-known speaker and author, Dr. Berger regularly accompanies Dr. Aires in presenting their joint research on immediate function dental implants. He has presented with Dr. Aires most recently presented at the International Congress of Oral Implantologists in San Diego. He was also co-author of the immediate function dental implant research paper recently published in the International Journal of Implant Dentistry. Dr. Berger holds both his undergraduate and doctorate degrees in dentistry from McGill University, (Montreal, Canada). He also holds a doctorate degree in general medicine from the University of Washington (Seattle). Dr Aires earned his doctorate degree in dentistry from the University of the Witwatersrand, Johannesburg, South Africa, followed by two years of advanced graduate training at the Boston University - School of Graduate Dentistry.
